

IGQ GOLF COLLEGE

The Cradle for Professional Golf Coaches

The Stairway for Professional Golf Players

Welcome to IGQ GOLF COLLEGE

ABOUT US

Welcome to IGQ Golf College, where ambitious individuals can realize their dreams and maximize their potential to compete or find employment in the fast-growing golf industry.

IGQ Golf College, approved by NZQA and the Ministry of Education, offers internationally recognized qualifications in Golf Coaching, Tournament Golf, and golf skill improvement. We also offer short-term programmes for golf enthusiasts who wish to recharge their skills and knowledge with our NZPGA golf professionals.

Principally located at Coringa Golf Club, IGQ Golf College is proud to be one of the leading golf training establishments in the world. Our facilities include some of the finest coaching and practice amenities in Christchurch, New Zealand, and a Championship Golf Course of 6,497 meters (7,200 yards), along with ideal wet weather practice facilities.

Our programmes and tutors provide an excellent combination of training, teaching, and assessment, supported by top-class facilities and a world-class PGA coaching team. This enables you to develop and enhance the skills needed to succeed in golf at top amateur or professional levels.

Our Programme Designer's 30 years of professional golf experience have created courses that are entirely golf-focused and based on established principles. We are confident that IGQ graduates will possess the skills and knowledge to meet current market needs, ensuring a bright future in the global marketplace.

Start your professional golf career with IGQ today. We look forward to helping you take the most important step in your future golfing journey!

◆ Pathway to University Degrees through IGQ

Future students: The diploma level students who have the intention to upgrade to Bachelor Degree level .

Learning objective: Through intensive English + professional courses, to help students quickly and smoothly enter the undergraduate university.

The content of Study: Intensive English courses + specialized courses of Sports , Leisure & exercises (Multi Sectors) majoring in Golf .

◆ Junior Golf Talent Program

Future Students: The primary or secondary school students aged 7 to 18, who have the intention to develop their golf skills and help them gain points for entering prestigious schools or universities in the future.

The Program Introduction: The Junior Golf Talent Program is jointly run by IGQ Golf College , Burnside High School, and Middleton Grange in Christchurch , New Zealand . It is to meet the needs of students who have an interest in golf and want to cultivate their golf skills, while not affecting their normal academic studies, while developing golf techniques well. Cultivate hobbies

and talents while adding extra points for their future study, and at the same time working towards the goal of becoming the professional golf athletes.

◆ NZPGA Member Education Courses

Target trainees: Those who are interested in pursuing a career as PGA professional golf coaches.

Learning objective: to study and pass the on-line modules certified by PGANZ and pass the practical playing ability test of PGANZ, reach the PGA playing level of professional coaches under the guidance of PGA professional coaches, and keep the handicap of playing ability below 4. The students will obtain coaching certificate at various levels issued by the New Zealand Professional Golf Association, which is internationally recognized.

◆ Golf Improvement Courses

Length of study: The length of study can vary from person to person, or you can manage the length of study according to your own pace or self-paced length of study, so the length of study is usually 3-6 months or longer.

Learning objective: To customize a learning and training plan, and through targeted teaching and intensive training, to enable students to achieve the target of lowering a number of strokes within a limited time and achieve their desire to break a certain number of strokes and lower their handicap.

◆ Golf practical training course for university students

Target Students: The university students majoring in leisure sports , social sports or the outdoor sports education

Course Content: This course is designed for students majoring in leisure sports or social sports, providing students with overseas practical internship and training courses (English + golf + outdoor development + teaching practice), so that students can improve their golf skills, improve their English level, experience different education and culture, broaden their international vision, and experience the life of studying abroad through short-term study and training overseas. The

performance of overseas practical training and internship can be converted into credits in their own university program.

◆ **Golf Teachers Improvement Courses**

Target Teachers and Coaches: Well-educated leisure sports and golf coaches, lacking the opportunity to play golf in the courses, intentionally take the advantages of the golf course training facilities of the program provider to go overseas for visiting and further study and improve their playing ability in the golf courses.

Target teachers and golf coaches: leisure sports teachers and golf coaches who have the intention to study overseas and improve their practical playing ability in the course.

Tailor-Made Programmes

◆ **New Zealand Primary and High School Study and Research Camp**

****Project Introduction: ****

This project is designed for students to utilize their winter and summer vacation time by transferring to local primary and secondary schools in New Zealand. Here, they will experience life in the same grade classes as local students. Participants will gain insight into different education modes of China and the West, understand local customs, improve their English communication skills, broaden their international perspective, and experience life as international students.

****Learning Content and Form: ****

In addition to core subjects such as English, mathematics, and science, the schools offer courses in music, painting, design, outdoor sports, and handicrafts. These courses are aimed at cultivating students' interests, talents, and independent innovation abilities. Upon entering the class, each student will be paired with a local peer to help them quickly integrate into English learning and daily life, fostering new friendships.

****Project Benefits: ****

1. ****Integration into Real Classes: **** Students will join a local key school, learning and interacting with local students in an immersive English environment, experiencing the life of studying abroad.
2. ****Host Family Stay: **** Living with the families of classmates, students will perceive local family life and understand different customs and traditions.

3. **Peer Pairing:** Each student will be paired one-on-one with a school classmate, making new international friends and quickly integrating into classroom learning and family life.
4. **Full English Immersion:** A 24-hour English learning and living environment will rapidly improve students' English communication skills.
5. **Experience Different Education Modes:** Students will experience the joyful education mode of New Zealand, enhancing their learning interest and innovation abilities.
6. **Rich Extracurricular Activities:** Activities include visits to famous schools, city sightseeing, ranch culture experiences, and unique outdoor sports, providing a rich and colorful study tour experience.
7. **Micro Study Abroad Experience:** By traveling and experiencing life abroad, students will broaden their international vision and see the world beyond their home country.

◆ New Zealand English and Golf Study and Research Programmes

Target Audience:

Young golfers who are interested in utilizing their summer or winter holidays to participate in short-term golf training and English learning at the New Zealand IGQ Golf College, aiming to enhance their golf skills and English communication abilities.

Program Introduction:

This program is designed for young golf enthusiasts with a foundational skill level to attend the New Zealand IGQ Golf College during their winter or summer vacations. The program offers an opportunity to leverage New Zealand's top-notch courses and coaching resources for short-term intensive golf training combined with English learning. Participants will rapidly improve their golf skills and English proficiency while experiencing the different educational approaches of China and the West, and gaining insight into life as an international student.

Learning Content and Format:

- **English Classes:** Conducted by local New Zealand teachers holding ESOL certifications.
- **Golf Training:** Provided by New Zealand AAA professional golf coaches.
- **Daily Practice:** Students engage in daily 9-18 hole training sessions.

- **Weekly Reviews:** Regular summaries and assessments to monitor progress and adjust learning plans accordingly, ensuring effective improvements in a short time.

Program Benefits:

- **English Improvement:** Daily lessons with certified ESOL teachers from New Zealand to enhance English communication skills.

- **Golf Skill Enhancement:** Daily training with New Zealand PGA professional coaches and playing 9-18 holes on different courses to quickly advance golf skills.

- **Competition Experience:** Participation in weekly competitions to gain experience and develop a competitive mindset.

- **Cultural Immersion:** A 24-hour English-speaking environment to rapidly improve communication skills and broaden international perspectives.

- **Extracurricular Activities:** Visits to renowned schools, outdoor adventures, ranch culture experiences, city sightseeing, and more, providing a vibrant and diverse study experience.

◆ Overseas Study Program for College Students

With the deepening of globalization, more and more college students choose to use their holidays to go overseas for short-term study to improve their professional skills and English proficiency. New Zealand, as a popular study destination, attracts many college students with its rich educational resources and unique cultural environment.

Use Vacation Time to Improve Professional Skills

College students use their holidays to attend short-term professional courses at universities in New Zealand. This not only helps them enhance their professional knowledge but also allows them to transfer the credits earned back to their home universities, reducing their academic burden. New Zealand's universities are internationally leading in many specialized fields, providing students with an excellent learning platform.

Improve English Proficiency

While studying in New Zealand, students are fully immersed in an English-speaking environment, significantly improving their English skills. Whether it is professional English used in the classroom or conversational English used in daily life, students have the opportunity to enhance

their language abilities comprehensively. This is highly beneficial for their future academic research and career development.

Broaden International Horizons

The multicultural environment of New Zealand universities gives students the opportunity to study and interact with classmates from around the world. This helps them understand different cultural backgrounds and learning styles, and teaches them how to communicate and collaborate effectively with people from diverse cultures.

Experience Different Learning and Research Methods

The teaching and research methods in New Zealand universities differ from those in their home countries. Through firsthand experience, students can appreciate different educational models and develop more independent learning and research abilities. This experience will have a profound impact on their future academic and professional careers.

Understand Different Development Directions in the Same Profession

By participating in overseas study programs, students can learn about the development directions and cutting-edge trends in their field of study in different countries. This not only broadens their horizons but also inspires their enthusiasm for professional learning and exploration.

Participate in Innovation and Entrepreneurship Courses to Find Employment Opportunities

New Zealand is renowned for its innovative spirit and entrepreneurial atmosphere. Many universities offer specialized innovation and entrepreneurship courses. Students can learn advanced entrepreneurial ideas and practices, and through project collaboration and internship opportunities, they can gain exposure to real business environments and even find future employment opportunities.

Conclusion

IGQ Golf College is working closely with the local universities. The overseas study program provides a comprehensive platform for students to improve themselves. They achieve not only academic success but also significant progress in cultural communication, language ability, innovative thinking, and career planning. This experience will undoubtedly inject new impetus and vitality into their future development.

◆ University Faculty Overseas Visiting and Collaborative Research Program

###Program Background

In today's globalized world, enhancing university faculty members' international perspectives and research capabilities is a key objective for university development. To this end, IGQ International Golf Academy has launched the "University Faculty Overseas Visiting and Collaborative Research Program," designed to provide a premium platform for Chinese university faculty to visit New Zealand universities, engage in collaborative research, and participate in teaching.

Program Objectives

1. ****Enhance Academic Standards****: Improve faculty members' research capabilities and academic standards through collaboration with professors at New Zealand universities.
2. ****Broaden International Perspectives****: Broaden faculty members' international perspectives by participating in teaching and visiting programs at New Zealand universities, and keeping abreast of cutting-edge academic trends and teaching methods.
3. ****Promote Academic Exchange****: Establish a bridge for academic exchange between Chinese and New Zealand universities, fostering collaboration in research and teaching.
4. ****Cultivate International Talent****: Develop academic talent with international perspectives and competitiveness through overseas learning and teaching experiences.

Program Content

1. ****Visiting and Exchange****: Participate in academic activities at New Zealand universities, including lectures, seminars, and academic forums, and engage in in-depth exchanges with professors and researchers.
2. ****Collaborative Research****: Conduct research projects with relevant professors at New Zealand universities to enhance research capabilities and levels, and publish high-quality academic papers.
3. ****Teaching Practice****: Teach related courses at New Zealand universities, share Chinese teaching experiences and methods, and learn about New Zealand teaching models and curriculum design.
4. ****Cultural Exchange****: Participate in cultural activities in New Zealand to enhance understanding and appreciation of New Zealand culture, promoting cultural exchange and integration between China and New Zealand.

###Program Advantages

1. ****Quality Resources****: IGQ International Golf Academy has established close cooperative relationships with several renowned New Zealand universities, providing faculty members with high-quality academic resources and exchange platforms.
2. ****Comprehensive Support****: During the program, IGQ International Golf Academy will offer comprehensive support, including visa processing, travel arrangements, accommodation, and living services, ensuring faculty members have no worries during their overseas visit.
3. ****Significant Benefits****: By participating in the program, faculty members can not only improve their personal academic standards and international perspectives but also contribute to the academic development and internationalization of their home universities.

Application Requirements

1. ****Professional Requirements****: Applicants must be university faculty members specializing in golf or related fields, with certain research capabilities and teaching experience.
2. ****Language Proficiency****: Applicants must have good English communication skills to engage in academic exchanges and teaching at New Zealand universities.
3. ****Work Experience****: Applicants must have a certain amount of teaching and research experience and possess the ability and willingness to undertake international collaborative research.

###Application Process

1. ****Submit Application****: Applicants need to complete an application form and submit personal resumes, academic achievements, and recommendation letters.
2. ****Qualification Review****: IGQ International Golf Academy will review the applicants' qualifications and liaise with the cooperating New Zealand universities.
3. ****Interview Assessment****: Applicants who pass the initial review will undergo an interview assessment, covering academic level, research capabilities, and language proficiency.
4. ****Final Selection****: Based on the assessment results, the final list of selected candidates will be determined, and assistance will be provided in visa processing and other related procedures.

Conclusion

The "University Faculty Overseas Visiting and Collaborative Research Program" not only offers university faculty members an opportunity to enhance themselves but also builds a bridge for academic exchange and cooperation between Chinese and foreign universities. We look forward to

welcoming more faculty members who are committed to self-improvement and academic excellence to join us on this exciting journey of visiting and learning

◆ IELTS English and Tutoring Courses Based on Your Needs

At IGQ Golf College, we are dedicated to empowering students and individuals to achieve their educational and professional goals through comprehensive and customized training programs.
